"ReadJunk.com": CD Review by Adam Coozar- "there are few bands that can pull off this type of straight-forward, thoughtful, and upbeat punk rock. Maybe it's too difficult for bands to strike the right balance, but Bennett & the Resistance make it look easy. This EP has 5 tracks - all of them great."

Other Things to Know: Jason was the lead singer, rhythm guitar player and main songwriter in Boston street punk band Suspect Device. Jimmy was the lead singer and lead guitar player in Boston's The Pug Uglies. Both played supporting gigs for bands such as The Mighty, Mighty Bosstones, The Subhumans, The Dropkick Murphys and The Street Dogs. Ryan was the lead guitar tech. for The Dropkick Murphys, The Street Dogs and The Kickovers and have been WBCN's band of the week. Nate Albert from The Mighty Mighty Bosstones introduced the band to Producer Paul Q. Kolderie. The band has played more shows on the road than in Boston.
